Report on the .pl domain name market for Q1 2018

In the first quarter of 2018, over 246,000 names were registered in the .pl domain. At the end of March 2018, there were 2 570 276 active names in the .pl domain for over one million registrants.

In comparison to the fourth quarter of 2017, there were 5 787 names lost in the registry. This means that in the analyzed period this drop amounted to 0.22% and was the smallest for 6 quarters. The renewal index, which was the highest for 9 years, increased and reached 63.29% at the end of the first quarter of 2018.
