## 27th CENTR Marketing Workshop

From 17 to 18 October the .pl domain registry was a host of the 27th CENTR Marketing Workshop.

During a two day event organized in Warsaw we hosted the representatives of 23 registries from Europe, Japan and Canada. Amongst the topics in the agenda there were issues regarding content marketing and marketing strategies, in particular targeted directly at millennials. The meeting was a good opportunity to share knowledge, exchange experiences and ideas for marketing development.

The marketing workshop of the CENTR organisation, the .pl domain registry is a member of, is held three times a year. The following meeting is going to be organized in Copenhagen in a few months.
